

Group 1 Project Process
CSE-3310 SP2022
Rev – 2/12/2022

This is the document that will describe the project process for Group 1.
This chart below displays all the members of Group 1 as well as shows all of our currently used Github accounts which we will use to store our program.

Group Members	Github account	Email	Notes
Waseem Alkasbutrus	Waseem-Alkasbutrus	waseem.alkasbutrus@mavs.uta.edu	
Minh Trinh (Leader)	MTrinh524	MinhTrinh524@gmail.com	
Meaza Abera	Meaza-art		

Meetings: Friday every week at about 12:00-1:00 (times can be slightly off and also meetings won't always take the whole hour)

Contacts: We are all in a Discord server where we can contact each other whenever possible

Link: <https://discord.gg/ds3wDFjw>

Requirements Specification	Contributors	Due Date	Notes

- The group will use github for source control with Waseem having the most experience with Github so he will be considered the master. Everyone else will clone from his repository, and then create github pull requests to merge in changes.
- This document will be controlled in github, just like the other assignments and the source code.
